

The Deck at Creekside, by JMark Hand.

Creekside Winery has always been one of my favourite wineries. It's not just the wines, they are stunning. It's not just the awards, they are many. It's not just the people either, although I'm not sure if there is friendlier staff to be found. When we were asked to become the hospitality provider on their gorgeous new wine deck we really couldn't say no. Heading into our first full season starting in the Spring of '09 (we opened originally August '08), we could not be more excited. Regional, seasonal wine country cuisine is what we offer. Menus will change, as each new crop ripens and becomes available. Our chefs understand the very simple fact that what is grown closest to home is what will taste best on the plate. Our partnerships with local farmers and producers continue to grow, and they will never not be given credit on our menus for the fruits of their labours. We hope you will join us to celebrate all that is good from the region. Enjoy wine by the glass or the bottle from the reigning "Winemakers of the Year"; Craig MacDonald and Rob Powers. Enjoy our Casual Wine Country Cuisine in a beautiful, relaxed outdoor setting. Enjoy our warm hospitality and service. Enjoy Niagara on "The Deck at Creekside";.
